AWARENESS DRIVES SAFETY

HOT-STOP® 'L'
LITHIUM ION FIRE CONTAINMENT KIT

**DEMO KITS
AVAILABLE!**

As a pioneer in Lithium-Ion Battery Fire Containment, we value the educated buyer and know it is hard to do important research and make informed decisions on life-saving equipment without actually seeing and touching the product. This is why we make our demo kits available to you before you buy. See and touch the quality of this FIREPROOF vessel that will protect your crew and passengers from the hazardous threat of today's powerful lithium battery powered devices. Just send it back to us in 10-days. We are confident you will confirm HOT-STOP's superiority as market leaders in fire containment.
