

AWARENESS DRIVES SAFETY

NEW HOT-STOP® 'L' TEST RESULTS ARE IN!

FAA – Registered Aeroblaze Laboratory determines HOT-STOP 'L' Fire Containment Kit considered Fire Proof as defined by Code of Federal Regulations (14 CFR 1.1) and as demonstrated by the FAA (AC20-135) test procedure.

HOT-STOP 'L' Drives Safety! Don't Settle for Less!

**COMMITTED TO
CONTINUOUS TESTING!**

*We build up to a
standard – not down to
a price point!*

HOT-STOP® 'L' LITHIUM ION FIRE CONTAINMENT KIT

NOW THE ONLY SOLUTION TO BE INDEPENDENTLY TESTED AT BOTH UL APPROVED AND FAA REGISTERED LABS – AND STILL THE ONLY BURN CERTIFIED KIT ON THE MARKET

Protect yourself & passengers against smoke, toxins, harmful carcinogens, fire, shooting molten metal and other emissions caused by new technology from the latest electronic devices.

Don't expose yourself! Ingesting any of these can result in immediate and permanent damage!

- Our Zero-Tolerance technology means ZERO SMOKE!
- 5 to 10 seconds max to deploy and in no more than 6 easy steps!
- No need to add liquid as adding liquid can result in increased exposure to a burning battery!
- Don't become a fire fighter!
- Infrastructure for full production
- **Zero Smoke Emissions!**

THE THREAT IS REAL!

- Developed by the Pioneers in Li-Ion fire protection technology
- Designed to contain a PED that reaches thermal runaway and contain it until it has burned out
- XL laptop kit (26" x 27") accommodates your larger all-in-one laptops and defibrillators
- Sold as kit – includes gloves
