

# INTRODUCING THE NEW PORTABLE ELT-SIZED FIRE CONTAINMENT SOLUTION FROM HOT-STOP 'L'

## HOT-STOP® 'L' LITHIUM ION FIRE CONTAINMENT KIT

**TESTED AND PROVEN BY AN FAA-REGISTERED  
LABORATORY TO BE FIREPROOF (AS DEFINED BY 14 CFR 1.1)**

**Protect yourself against toxic smoke, gases, harmful carcinogens,  
fire, shooting molten metal and other emissions caused by new  
technology from batteries in the latest electronic devices.**

Don't expose yourself! Ingesting any of these can result in immediate  
and permanent damage!

- Our Zero-Tolerance technology means ZERO SMOKE!
- 5 to 10 seconds max to deploy and in no more than 6 easy steps!
- No need to add liquid as adding liquid can result in exposure to a  
burning battery!
- Don't become a fire fighter!
- Developed by the Pioneers in Li-Ion fire protection technology
- Designed to contain a PED that reaches thermal runaway and contain it  
until it has burned out
- FIREPROOF – Doubled time required for FAA (AC20-135) Test  
Procedure with 2000°F Powerplant Fire Penetration for 30-minutes

### Now Available

#### Portable ELT Containment Stowage

This 14"x10" portable ELT vessel conveniently
